DETAILED ACTION

1. Claims 1-21 are presented for examination.

2. Claims 1-21 are allowable.

3. The application has been amended as follows:

In the specification, at page 13, line 5, delete "The" and insert – As illustrated in Fig. 5, the --.

4. The following is an examiner's statement of reasons for allowance:

The prior arts fail to teach or fairly suggest the classification or grouping of tools wherein the number of individual tools within each group being calculated as per the limitations of the instant invention. The instant invention goes on to teach that a preference index for each tool is assigned and used in generating a manufacturing schedule. The intent of the instant invention is to improve tool utilization by prioritizing each tool as opposed to workpieces as per the prior arts. Optimal scheduling of tools in a manufacturing environment enhances the total utilization of the tools and enables increased efficiency of the manufacturing units. The limitations of independent claims 1, 8, and 15, in combination with the other elements and features of the instant invention are not taught, disclosed, or fairly suggested by the prior arts record. Thereby, rendering claims 1-21 allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
